## CEM 2026 workshop on “*The future of EMC tests*”

April 14, 2026

- 8.30 am** Registration
- 9 am** Talk #1 – *Megatrends in the automotive industry and their impact on future standardization*  
Speakers : F. Lafon (Valeo), R. Perrot (UTAC), X. Bunlon (Renault)
- 9.45 am** Talk #2 - *Evolution of EMC standards in aeronautics*  
Speakers : C. Jullien (Safran), V. Melchor (Safran Tech)
- 10.30 am** Coffee break
- 11 am** Talk #3 – “VIRC : a promising future for EMC testing ?”  
Speakers : G. Andrieu (XLIM), N. Ticaud (CISTEME)
- 11.45 am** Talk #4 – *Can You Identify an Electromagnetic Photo ? – EMC Analysis Enhanced by Artificial Intelligence*  
Speaker : Xing-Chang Wei (Zhejiang University, China), IEEE EMC Society Distinguished Lecturer
- 12.30 pm** Lunch
- 2.15 pm** Visit of the CISTEME facilities
- 3.15 pm** Talk #5 – *Evolution de l’environnement EM des équipements militaires terrestres tactiques depuis 40 ans induit par les évolutions techniques et les attentes opérationnels*  
Speaker : P. Bruot (Thalès)
- 4 pm** Coffe break
- 4.30 pm** Talk #6 – *Blurring the Lines of EMC and Antenna Testing for Automotive Applications*  
Speaker : G. D’Abreu (ETS-Lindgren, USA)
- 5.15 pm** End of the workshop

### Venue

ENSIL-ENSCI  
16 rue Atlantis  
LIMOGES

### Registration (40 €)
